

Send to: **Chief Executive, ESB Networks Ireland Headquarters, 27 Fitzwilliam Street Lower, Grand Canal Dock, Dublin 2**

Also send to: **Your electricity utility supplier (e.g. Electric Ireland, Energia, Bord Gais etc)**

Also send to: **Commissioner in Charge, Commission for Regulation of Utilities, Smart Metering Team, The Exchange, Belgard Square North, Tallaght, Dublin 24**

Dear as well as your agents, officers, employees, contractors, sub-contractors etc ,

NOTICE OF NON-CONSENT FOR SMART METER INSTALLATION - NOTICE OF LIABILITY

This notice is sent to you to advise you and all other parties that you are denied consent to install and/or use any and all 'Smart Meters' at my residence. This includes meters that can be wirelessly enabled at a later stage, any meter that can transmit household consumption through a wireless network or any two-way automatic communication system using radiofrequency transmitters/sims/Bluetooth etc.

Independent scientific research has clearly demonstrated that the use of pulsed radiofrequency microwaves for wireless devices such as 'smart meters' is detrimental to health. A summary of these health effects is included in the BioInitiative Report 2007 (updated 2014), which includes 3,800 peer-reviewed research papers from independent scientists.

The World Health Organisation classified all radiofrequency (RF) as a Class 2B 'possible' carcinogen in 2011. RF microwaves are also an endangerment to animals, insects and plants.

Besides being reported as a fire hazard on a worldwide bases, 'smart' meters can also be 'hacked'.

I deny consent for these reasons and basically to protect the privacy and health of my family and community, all humans, animals, plants, insects and the environment.

I am exercising my lawful right to forbid, refuse and deny consent for the installation and use of any wireless enabled meter that can monitor, survey personal data about my family/residence without my consent. Any attempt to install such devices on my residence will constitute trespass and endangerment to health and well-being and a threat to privacy and security.

This is a legal notice.

I reserve the right to amend this notice at any time. Please file my denial of consent in your records and ensure your installers are informed.
